Russian Wool Scarf

Dimensions: 89 x 89 cm

Quality: - Classique Pure new wool

Fringes:- Silk

Among the universally known Russian products, the shawls and the scarves of Pavlov Possad occupy a particular place because the Manufacture of Pavlov Possad is classified as a emblematic company of "the Russian national Craft industry"

This factory produces each year more than 200 references of scarves, shawls and scarves out of natural fibres: wool, cotton and silk. All its models are of very neat manufacture, and are divided into two lines of goods:

- "traditional" range, with a density from approximately 80 with 100g with the m²

- "exclusive" range with a reinforced density of 131g to the m²

In the traditional range, the fringes are carried out in pure wool, and with the machine.

For the exclusive range, in addition to the reinforced density, the fringes are out of silk, often describing reasons for embroidery, and are added one by one with the hand by experienced craftsmen. The exclusive models are very required, and are exported in the whole world.

These shawls of extra quality, manufactured out of ecologically irreproachable fibre, are hot, soft and infroissables. Of Traditional or Exclusive range, of modern style or with more traditional floral reasons, typically Russian ones, these Russian Shawls will bring you great satisfactions during long years and
